

AIMS AND SCOPE

Pathogenesis is a new online-only, open access journal published on behalf of The Royal College of Pathologists. The scope of interest includes all areas of illness and normal cellular and molecular development for humans and veterinary disease. It is dedicated to publishing peer reviewed original scientific research articles and high quality reviews (also Editorials and Letters to the Editor) which report on the multidisciplinary areas of Molecular and Diagnostic Pathology, Cellular Mechanisms as well as aspects of Haematology, Proteomics, Virology, Microbiology and Chemical Pathology.
